BEYOND BORDERS

OBSERVE AND EXPLORE

Zee Learn in association with Gakken J Holdings, an educational firm from Japan, has launched 'Zee Learn Gakken Science Academy' for schools. The partnership was sealed by Subhash Chandra, chairman, Essel Group and Tetsuya Onodera, chairman, Gakken J Holdings. The academy aims to improve conceptual understanding and develop scientific aptitude amongst students by providing hands-on learning experiment tools. The programme is a three step systematic methodology of 'observe, explore and reflect,' which would help a child nurture his/her scientific aptitude.
